

## **Apple Collective Buying Power Program**

PDA has entered into an alliance partnership with the Scaffold & Access Industry Association (SAIA) to help our members with Apple, Inc. buying power.

The Apple Collective Buying Power Program is beneficial as long as members of both organizations are purchasing under the SAIA member umbrella. The more the two memberships purchase, the larger the discounts could be.

Members receive discounts on Apple products, including computers, laptops, iPads, iPad Mini's, most iPhones and much more. The collective buying power discounts are approximately equal to the following:

- **10% discount on Apple Care and Apple accessories**
- **5% discount on iPods**
- **4% discount on iPads**
- **2% discount on Apple computers**

**To receive your discount, contact Matt Logan and let him know you are purchasing under the SAIA collective buying program.**
