About Polyurea Development Association

The Polyurea Development Association is the trade association for the global polyurea industry. This association was formed in 2000 by leading companies involved in all aspects of polyurea. It is the mission of the Polyurea Development Association to promote market awareness, understanding and acceptance of polyurea technology through the development of education programs, product standards, safety and environmental and use recommendations.

Objectives of PDA

- Clearly define polyurea products
- Develop polyurea marketing programs for all pertinent market applications
- Serve as a clearing house of dissemination of polyurea information
- Establish protocol and standards for the polyurea applications
- Determine and respond to training needs
- Organize and host industry trade meetings as a forum for technical reviews and new product introductions, and method of offering training and member networking opportunities.

As a member of the Polyurea Development Association, you will receive the following Member Services and Benefits:

- Shape the future of the industry
- Network with industry leaders
- Access technical papers, research and Q & Z on the website
- Podium newsletter
- Annual industry conference
- Committees
- Members only discounts on technical information, educational courses and the annual conference
- Searchable Member directory
- Opportunity to exhibit, speak and present at annual conferences
- Contact member experts regarding technical questions via email
- Product self-certification program/Pure Polyurea Listings
- Provide a standard definition of polyurea
- Offer industry training
- Purchase discounted technical information
- Guidelines
- Glossaries
- Health and Safety CDs
- Standards
